// ABOUT US

ABOUT THE COMPANY.

DGSI is a leading integrator and strategic supplier of industrial solutions, dedicated to optimizing the supply chain for companies in the automotive and manufacturing sectors. By combining a vast portfolio from global automation leaders (Siemens, Festo, Omron) with an exceptional capability for rapid execution of custom parts from technical drawings, we reduce downtime and consolidate our clients' operations. We deliver not only technical excellence, but also complete operational and financial predictability, backed by a firm 12-month price guarantee.

✓ Premium Portfolio
Authorized distributor for dozens of global brands.

✓ Technical Agility
Emergency production of custom parts and welding electrodes from technical drawings.

✓ Supplier Consolidation
Single point of contact for tools, automation, sensors and custom parts.

✓ OPEX Predictability
Anti-inflation shield with contractually locked prices for a full year.

// TRUSTED BY INDUSTRY LEADERS

// DGSI ECOSYSTEM

INTEGRATED SUPPORT.

PRODUCT CATEGORIES

Machining
- Drilling & Reaming
- Threading & Tapping
- Cutting & Parting
- Turning
- Milling

Tool holders
- Tool holders
- Collet chucks
- Lathe chucks
- Machine vises
- Rigid clamping

Measurement
- Weight measurement
- Micrometers
- Feeler gauges
- Dial indicator
- Calipers

Tools
- Abrasive discs
- Saw blades
- Torque & impact tools
- Precision files
- Tool kits

• DGSI BRAND

Projection Welding
- Upper electrodes
- Lower electrodes
- Ceramic locating pins
- Insulating bushings

• DGSI BRAND

Sockets
- Impact sockets
- S1/4" bit sockets
- Extension bars
- Bit–square adapters

SUPPORT SERVICES

01 Industrial Services
Tool regrinding & resharpening, die & stamping tool repair, heat & surface treatments, custom part manufacturing.

02 Emergency Production
Rapid response to line stoppages, advanced ceramics, custom-designed welding electrodes.

03 Procurement & Sourcing
1-year price guarantee, multi-brand "One Source" portfolio, budget & stock optimization.

04 Audit & Technical Consulting
Production line & tooling analysis, "Stop-Line" risk identification, strategic cost reduction.

DGSI
DEVELOPMENT GENERAL SYSTEM INDUSTRY

// STRENGTHS & ADVANTAGES

WELDING SOLUTIONS.

Extreme performance through advanced ceramics, CuCrZr & modularity

01 Extended service life

Advanced ceramics deliver up to 20× the durability of steel under extreme thermal and mechanical loads.

02 Perfect insulation, zero defects

Electrical and thermal insulation prevents short circuits and thread damage — consistent welds, less scrap.

03 Optimized maintenance

Modular electrodes, quick change: shorter setup times and fewer unplanned stops (OEE / MTTR).

04 Direct compatibility

Parts interchangeable with common industry standards — integration without modifying the line.

ESSENTIAL

MADE TO ORDER

We manufacture components in **technical ceramics** and **CuCrZr** from technical drawings or samples — special dimensions, profiles and threads, in small or large series.
