// STRATEGIC INDUSTRIAL PARTNER

PRECISION IN EVERY PART.
SPEED IN EVERY ORDER.

Your strategic partner for premium multi-brand integration, emergency custom manufacturing and guaranteed price stability.

// ABOUT US

ABOUT THE COMPANY

DGSI is a top-tier integrator and strategic supplier of industrial solutions, dedicated to optimizing the supply chain for companies in the automotive and manufacturing sectors. By combining a vast portfolio from global automation leaders (Siemens, Festo, Omron) with an exceptional capacity for the rapid execution of custom parts based on technical drawings, we reduce downtime and strengthen our clients' operations. We deliver not only technical excellence but also complete operational and financial predictability, backed by a firm 12-month price guarantee.

Premium Portfolio

Authorized distributor for dozens of global brands.

Technical Agility

Emergency production for custom parts and welding electrodes from technical drawings.

Vendor Consolidation

Single Point of Contact for tools, automation, sensors and custom parts.

OPEX Predictability

Inflation shield with contractually locked prices for 1 full year.

// TRUSTED BY INDUSTRY LEADERS

Dacia · Horse · Kirchhoff Automotive · Beyçelik Gestamp · Martur Fompak International · Coşkunöz Holding · farplas · Timken · opsan · UKS · GIC Nosag metal

// DGSI ECOSYSTEM

END-TO-END SUPPORT

PRODUCT CATEGORIES

Machining

- Holemaking & Boring
- Threading & Tapping
- Parting & Cutting-off
- Turning
- Milling

Toolholding

- Toolholders
- Collet Chucks
- Lathe Chucks
- Machine Vises
- Rigid clamping

Measurement

- Weight measurement
- Micrometers
- Feeler Gauges
- Dial indicator
- Calipers

Tools

- Abrasive discs
- Saw blades
- Torque & impact tools
- Precision files
- Hand & tool sets

Projection Welding

- Upper electrodes
- Lower electrodes
- Ceramic pins
- Bushings

SUPPORT ACTIVITIES

Industrial Services

Tool Regrinding & Sharpening, Mold & Die Repair, Heat & Surface Treatments, Custom Part Manufacturing

Emergency Manufacturing

Rapid intervention for line stoppages, Advanced ceramics, Custom-engineered welding electrodes.

Sourcing & Procurement

1-Year Price Guarantee, "One Source" multi-brand portfolio, Budget & inventory optimization.

Audit & Technical Consulting

Production line & tooling analysis, "Stop-Line" risk identification, Strategic cost-down.

// MACHINING

PREMIUM MACHINING TECHNOLOGIES

- Holemaking & Boring
- Threading & Tapping
- Parting & Cutting-off
- Turning
- Milling

KEY PARTNERS

BOSCH · Milwaukee · KYOCERA · KOMET · ROHM driven by technology · HAINBUCH WORKHOLDING TECHNOLOGY · PFERD TOOLS · BAHCO · GEDORE · FACOM

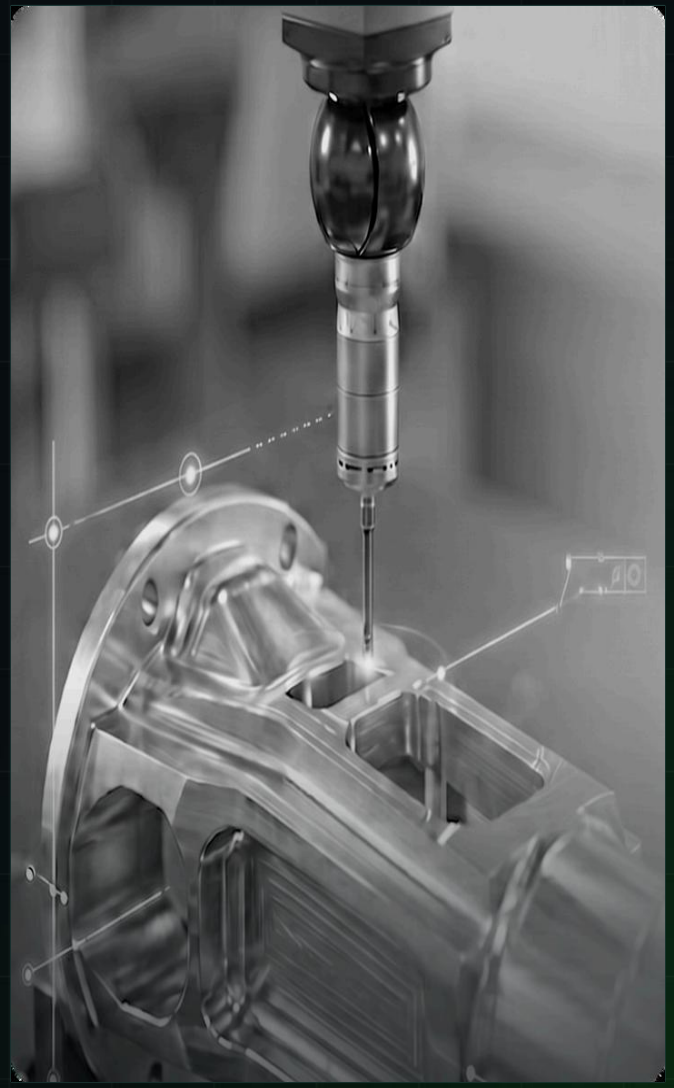

// CLAMPING

PROFESSIONAL CLAMPING & FIXTURING

- Toolholders
- Drill Chucks
- Lathe Chucks
- Machine Vises
- Rigid Clamping

KEY PARTNERS

SCHUNK · ROHM driven by technology · HAINBUCH WORKHOLDING TECHNOLOGY · BESSEY · AMF · ALLMATIC · TECNOMAGNETE · JAKOB · WITTE WERKZEUGE · SAV magnets · chucks · fixtures

// METROLOGY

INDUSTRIAL METROLOGY

- Calipers
- Micrometers
- Dial Indicators
- Feeler Gauges
- Measurement Tools

KEY PARTNERS

Mitutoyo · ZEISS · Mahr · tesa · RENISHAW · HEIDENHAIN · FLUKE · GEDORE

// AUTOMATION

SENSORS & INDUSTRIAL CONTROL

- Smart Sensors
- Vision Systems
- Laser Scanners
- Proximity Sensors
- Industrial control

KEY PARTNERS

SIEMENS · ABB · FESTO · BALLUFF · SICK Sensor Intelligence. · Honeywell · Weidmüller · BOSCH

// HAND TOOLS

PROFESSIONAL TOOLS

- Fastening & Assembly
- Torque Technology
- Manual Machining
- Hand tools
- Tool sets

KEY PARTNERS

Milwaukee · FACOM · STAHLWILLE · UNIOR · HAZET · BOSCH · PFERD TOOLS · LUKAS · TYROLIT · KOMET

// PROTECTIVE EQUIPMENT

WORK EQUIPMENT

- Hand protection
- Head protection
- Workwear & Footwear
- Fall Protection & First Aid

KEY PARTNERS

optrel · bimos · fetra · PARAT · BURG WÄCHTER

// WELDING SOLUTIONS

WELDING SOLUTIONS.

Extreme Performance through Advanced Ceramics & Modularity

Extended Lifespan

Advanced ceramic components offer up to 20x greater durability than standard steel solutions, withstanding extreme thermal and mechanical stress.

Perfect Insulation & Zero Defects

Superior electrical and thermal insulation prevents short circuits and thread damage, ensuring consistent welds and significantly reducing scrap rates.

Optimized Maintenance (OEE / MTTR)

Modular electrode architectures combined with rapid, custom manufacturing from technical drawings drastically reduce setup times and prevent unplanned line downtime.

PERSONALISED SOLUTIONS

// WELDING SOLUTIONS

THE MODULAR ELECTRODE SYSTEM

Resistance Projection Welding (RPW) · Automotive

Positioning Pin

Ceramic Pins

VOLCERA · SHOCK-RESISTANT

Electrode Caps

Cu · DIN 44750

COMPONENTS WE DELIVER

- Upper Electrode Parts
- Lower Electrode Tips

// UPPER ELECTRODE

OPTIMIZED ENERGY TRANSFER

20× longer wear-electrode lifespan vs. standard steel — drastically reducing MTTR and consumable costs.

Core Function

Precise, consistent energy transfer for high-volume projection welding series.

Mechanical Rigidity

Eliminates deflection — stable power transmission and zero-defect joints.

Active Cooling

Directly manages thermal load at the welding tip, extending electrode life.

// SPECIFICATIONS

MATERIALS	
Base / Holder / Shank	**CuZn39Pb3 · 2.0401**
Wear Electrodes	**CuCrZr · 2.1293**
DIMENSIONS	
Total system length	**150 – 300 mm**
Shank length	**40 – 190 mm**
Tip interface	**M18×1.5 / Cone 1:10**
COOLING & INTEGRATION	
Fittings	**G1/4 · Ø8 mm hoses**
Sealing	**NBR 70 O-rings**

// MATERIAL SCIENCE

THE ADVANCED CERAMIC ADVANTAGE

Why ceramic-based electrode architecture outperforms standard steel solutions.

Extreme Thermal & Shock Resistance

Cerazur / Volcera full-ceramic pins withstand intense welding heat and mechanical impact without deforming.

Precision Zero-Defect Alignment

Wear-resistant ceramic ensures long-term component positioning and consistent weld repeatability.

Optimal Electrical Insulation

Full-ceramic insulation prevents current shunting — energy is directed precisely to the weld zone.

// MATERIALS MATRIX

COMPONENT	MATERIAL	STANDARD	ROLE
Base / Holder / Shank	**CuZn39Pb3**	2.0401	Structural rigidity
Wear Electrodes	**CuCrZr**	2.1293	Thermal & electrical conductivity
Centering Pins	**Cerazur / Volcera**	Full-ceramic	Thermal & shock resistance
Insulation	**DOGLAS**	—	Compressive strength & isolation

▸ **Custom-engineered from your technical drawings — rapid delivery, zero unplanned line downtime.**
